IF YOU CAN *design & engineer it* TOGETHER WE CAN *build & protect it*

We know that the success of a construction project relies on more than the products that are used, as it takes a lot of skill, knowledge, understanding and expertise to ensure that those products are applied in the best way possible.

At CPG Europe, we're committed to shaping the future through innovative approaches and sustainable solutions.

This commitment is backed up by the fact that we bring together first-class technology with a customer-focused approach and skills that have been built up over multiple decades within very specialised fields to provide a truly unique service.

From joint sealing, bonding & insulation through to passive fire protection, performance flooring, waterproofing and roofing solutions — our broad range makes us uniquely tailored to solving the complex challenges faced by today's architects, contractors, developers and tradesmen.

As experts in a wide range of engineered construction product solutions, CPG Europe provides the details that keep the world's major developments safe, strong, sealed and secure.

Europe's leading construction products brands...

OUR *mission*

Collaborate, innovate and educate for sustainable customer success.

OUR *vision*

Our people and product systems enable you to shape a world where buildings and structures save energy, last longer and exceed sustainability benchmarks.

OUR *values*

COLLABORATION

HONESTY & INTEGRITY

ENGAGEMENT

SUSTAINABLE DEVELOPMENT

CPG Europe has 1,400 employees and is part of RPM International Inc. — one of the world's leading construction products companies for both the industrial and consumer segments. RPM is headquartered in Medina, Ohio (USA) and is listed on the New York stock exchange.

CPG Europe has a distinctive and leading position in the market owing to the strength of its well-recognised product brands and its capacity to leverage the synergies between them through effective collaboration of its people, products and services.

a family OF BRANDS *under one roof*

The product brands housed within CPG Europe cover a wide array of different construction needs and provide a wealth of complex services, support and systems that are rarely found together under one roof.

Flowcrete
for the world at your feet

Industrial and Commercial Flooring

With 40 years of expertise in the manufacture and specification of the best-performing flooring materials, Flowcrete transforms your building surfaces into a sustainable and safe environment that looks good, lasts and is cost-effective to install and maintain.

Some of our products include polymer flooring, antibacterial and subfloor screeds, fast cure MMA resins, seamless terrazzo, hygienic flooring, car park decking and industrial resins.

As part of Construction Products Group Europe, we are the single supplier our customers trust and partner with for every element of their floor projects, no matter the scale, scope, or sector.

www.flowcrete.eu

 **TREMCO**

Contractor Flooring, Waterproofing and Roofing

For more than 75 years, TREMCO has been the preferred choice for flooring, waterproofing, and roofing solutions. Offering contractors, specifiers, and architects fully compatible systems, we pride ourselves on remaining innovative and ecological.

A brand of Construction Products Group Europe, TREMCO is recognised by building professionals and the construction industry across the UK, Europe and the globe. The lasting performance of our products, as well as the friendly technical advice, training and services we offer, mean our technical and commercial teams are equipped to work closely and support our customers and distributors every step of the way.

TREMCO is one of the rare brands to offer a fully compatible system solution to flooring contractors.

Nullifire

Passive Fire Protection

Nullifire is at the forefront of smart passive fire protection. We are specialists, with one focus that has not and will not change – to protect people and buildings from fire. For over 40 years, Nullifire has been a market leader in intumescent and fire stopping solutions.

Passive fire protection is highly complex but crucially important, especially as buildings become more sophisticated. At Nullifire, we understand the need to have confidence in fire protection, so we provide systems that perform when they are called upon.

With a unique team of technical experts, everything is focused on providing what our customers need at every stage of their project.

illbruck
making it perfect.

Sealing, Bonding and Insulation

illbruck adds perfection – to all your sealing, bonding and insulation projects be it windows, façades, interiors or exteriors, a major construction scheme or a minor refurbishment job.

Perfect sealing, bonding and insulation is crucial both to the functioning of buildings and their energy efficiency. We are setting standards for over 60 years and our products have been milestones in this innovation heritage. We offer the right set of products, targeted training, and practical advice to lessen your workload and to improve the overall climate of buildings. Making it perfect.

www.illbruck.com

Dryvit

External Insulation and Finishing Systems

Dryvit has been a leading name in the External Insulation and Finishing Systems (EIFS) industry since 1969 due to a commitment to innovation, quality, and value. Dryvit consistently introduces new products and systems maintaining a position at the leading edge of the building industry assisting in meeting, and often exceeding, energy and safety related building regulations.

Dryvit EIFS are used in all climates, delivering energy efficiency in both hot and cold environments. Alongside the functional benefits buildings gain from Dryvit EIFS, Dryvit also allow architects and building owners to create buildings of outstanding aesthetic appeal and diverse style across all genres of design.

Nudura

Solid Insulated Wall Systems (ICF)

Solid Wall Insulated technology (ICFs) from Nudura provide architects, specifiers, self-builders, developers, and contractors a more efficient way to build.

Building with ICF allows homes and commercial dwellings to be built in a stronger, more energy efficient, and environmentally friendly manner.

ICF from Nudura uses polystyrene connected with a web system that allow the forms to be stacked and steel reinforced. The polystyrene forms are then built up on site and filled with ready-mixed concrete. The polystyrene combined with the concrete offer provide a thermal mass, allowing structures to be heated and cooled more effectively.

innovating & educating

FOR CUSTOMER SUCCESS

We're committed to working alongside our customers to provide them with the information and help they need to be successful time after time.

This full-spectrum support means that our customers are provided with assistance right from the start of the design and specification phase through the application work and into the after-care maintenance and ongoing daily operations of the site.

When working with CPG Europe, you're getting much more than high performance building materials, as you'll also be getting a well-rounded customer experience that includes...

TECHNICAL ADVICE FOR EVERY SITUATION

Whether on the construction site, over the technical hotline or via chat, our specialists are always ready to provide you with advice and support. We also provide application videos that explain procedures and processing steps for our products in detail.

LOCAL MANUFACTURE & SUPPLY

We manufacture our product portfolio in a number of plants, located across Europe. This means that we are well placed to sell and supply products and services to any project, anywhere at any time.

TRAINING COURSES AND RIBA CPDS

We are always happy to share our extensive industry knowledge through our CPG Academy training portfolio of RIBA approved CPDs, virtual coffee chats and on-site support.

To book training with any of our brands contact:
cpguktraining@cpg-europe.com

SHAPING A SUSTAINABLE FUTURE

By working to reduce our environmental footprint across all of our manufacturing sites through energy and water conservation as well as recycling, packaging optimisation and proper waste disposal, we ensure that our customers can source materials that meet the highest standards of environmental best practice.

CHOSEN by *major clients* ACROSS EUROPE

All across Europe, city skylines are stronger, safer, more resilient and more sustainable thanks to CPG Europe.

The wide-spread trust in the quality of our brands and their technologies can be seen by the number of high-profile, challenging and world-leading developments that have chosen to utilise our products, services and expertise.
